

COMMUNITY MEETING NOTICE

SAMARITAN MEDICAL CENTER TRANSPORTATION IMPROVEMENTS

Location: Cambrian Library Community Room
1780 Hillsdale Avenue, San Jose, CA 95124

Time: January 31, 2017, 7:00-8:30pm

The Samaritan Medical Center expansion has been approved by the City of San Jose, allowing for new medical offices adjacent to Good Samaritan Hospital. The development project is required to invest in transportation improvements in and around your neighborhood, and **we want your input into potential projects and priorities.**

Background

As a condition of the Samaritan Medical Center expansion, various transportation improvements are required, including around the Medical Center and near the intersection of Camden and Union Avenues. Some transportation improvements have already been determined, while others will be determined by the City of San José's Department of Transportation in consultation with the community, the developer, and the City Council District 9 Office.

The Department of Transportation will host this community meeting to present and discuss transportation improvements to be completed as part of Samaritan Medical Center expansion projects. The focus of this meeting is to present options and receive community input about priorities for improvements that may be implemented per the City's Transportation Impact Policy 5-3, and particularly the provisions regarding improvements to the transportation system near the intersection of Camden and Union Avenues – for example, safety improvements, pedestrian routes, and/or bikeways.

Comments and questions on the proposed Protected Intersection mitigation proposals should be referred to Doug Moody in the Department of Transportation (Doug.Moody@sanjoseca.gov) or Joseph Dyke in Public Works (Joseph.Dyke@Sanjoseca.gov).

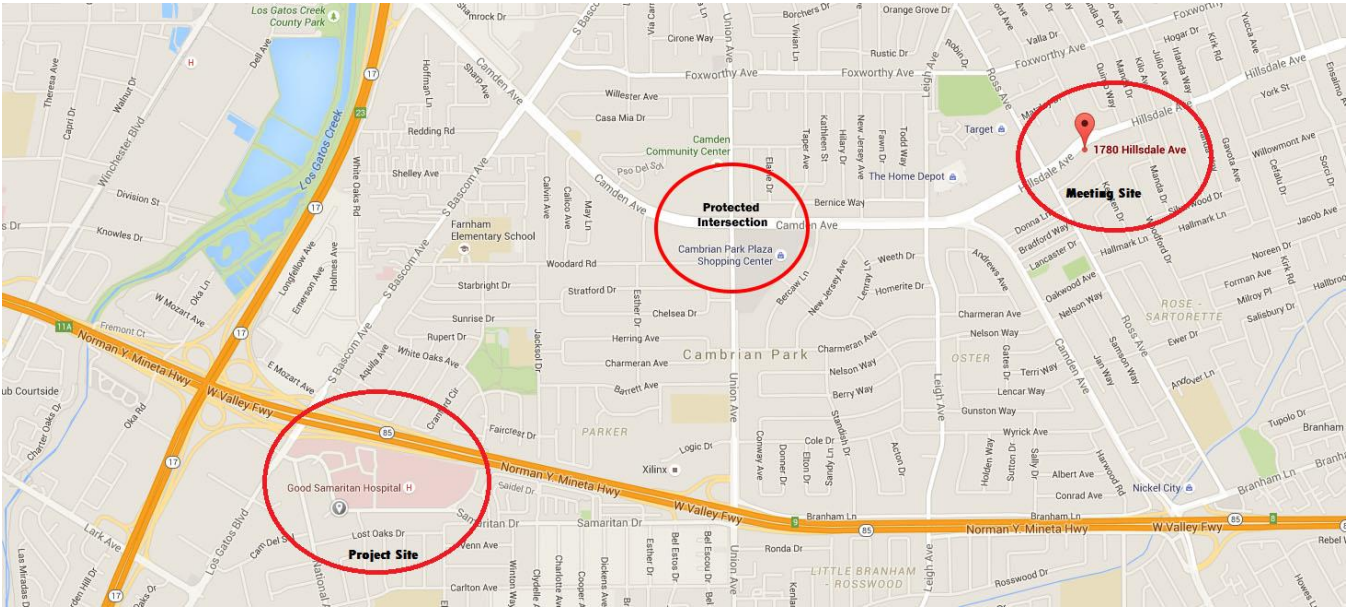

Comments and questions on the Samaritan Medical Center project should be referred to Lea Simvoulakis, the Planning Project Manager by calling (408) 535-7837 or by emailing Lea.Simvoulakis@SanJoseCA.gov.

Samaritan Medical Center Project Descriptions:

File No. PD14-013: Planned Development Permit to construct a 69,250 square foot medical office building with half a parking structure on a 2.24 gross acre site.

File No. PD16-023: Planned Development Permit to allow the construction of a 6-story 120,000 square foot medical office, stand-alone 5-story 230,000 square foot garage and removal of 15 ordinance size and 101 non-ordinance sized trees on a 2.9 gross acre site.
